

Feras Mahmood

GenAI and ML Developer

Oakville, ON | (365)7395522 | technocratz979@gmail.com
linkedin.com/in/feras-mahmood | github.com/Ferasman979 | ferasmahmood.com

SKILLS

- Full-Stack Development (Python/JS) & ML Integration
- Scalable Data Pipeline Architecture (ETL/ELT)
- GenAI Architecture and App Development
- Containerization & Orchestration (Docker/K8s)
- Cloud Computing & IAC (AWS/GCP/Azure)
- Model & Data Monitoring/Dashboarding (Grafana/Prometheus)

EXPERIENCE

Sheridan College

Oct 2025 – PRESENT

ML Developer/Research Assistant

Oakville, Ontario

- **Platform & Data Governance:** Architected and governed highly scalable data schemas, ingestion pipelines, and automated validation workflows, specifically supporting productionized RAG Agents and sophisticated NLP systems.
- **CI/CD & Reproducibility (Model Lifecycle):** Designed and operationalized the end-to-end Machine Learning lifecycle (MLOps), transforming prototype ML engines into highly reproducible CI/CD pipelines that fully automate feature engineering, model training, and continuous evaluation.
- **High-Volume Production Operations:** Led the deployment, monitoring, and sustained operation of high-impact, containerized ML services, managing infrastructure reliability and scaling to support 20,000+ active users with 99.9% up-time and volume requirements.
- **Cross-Functional Project Lead:** Collaborated with designers and developers, defining operational requirements and implementing best practices to ensure models, vector stores, and data flows were inherently scalable, maintainable, and cost-efficient in production environments.

Paradigm Electronics Inc.

May 2024 – Aug 2025

Data Analyst

Mississauga, ON

- **Data Pipeline Optimization & Automation:** Engineered and scaled robust ETL pipelines and complex SQL transformations using Apache Airflow, resulting in the automated daily, Month-to-Date (MTD), and Year-to-Date (YTD) reporting for Global sales operations.
- **Business Intelligence & Financial Impact:** Developed and deployed key performance indicator (KPI) dashboards for Finance and Sales teams, incorporating automated anomaly detection that directly led to the recovery of \$15,000 CAD in misplaced costs.
- **Strategic Data Analysis & Revenue Growth:** Conducted deep-dive data analysis on product quality metrics and sales performance indicators, providing actionable insights that fueled a documented 20% revenue growth for the organization in Q2, 2024.
- **Full-Stack Development & API Engineering:** Led full-stack development initiatives and deployed REST APIs as scalable solutions. Incorporated API scripting and monitored API performance to ensure reliable, real-time access to critical performance and operational metrics.
- **Workflow Automation & Efficiency:** Executed the deployment of automated batch jobs and background processes that streamlined sales contract management, successfully reducing contract processing time by 45% and improving overall sales workflow efficiency.

EDUCATION

Sheridan College

Sep 2021 – Apr 2026

Bachelor's Degree in CS (Data Analytics)

Oakville, ON

- GPA: 3.1
- Achievements: Secured First Place in Capstone Showcase, recognized for innovation, technical excellence, and real-world impact in AI-powered sports analytics

VOLUNTEERING

Google Developer Group Sheridan

May 2025 – Present

Workshop Team Member

- Supported and organized the design and delivery of community tech workshops, helping 100+ attendees gain hands-on experience with Google technologies.
